

Launch communication

12 September 2016

Object: **EDARBYCLOR – PRODUCT AVAILABILITY ON SEPTEMBER 19, 2016**

Dear Pharmacist,

Valeant Canada is pleased to announce the launch of **Edarbyclor** (azilsartan medoxomil potassium and chlorthalidone). **Edarbyclor** is the combination of Edarbi (azilsartan medoxomil), an Angiotensin II AT₁ receptor blocker and chlorthalidone, a thiazide-like diuretic.

Edarbyclor is in inventory at distributors and you may place your order with your usual distributor starting September 19, 2016.

Product:

Description	Format	Catalogue	UPC	DIN
Edarbyclor 40mg/12.5mg	28 pills (blister pack)	060752001342	060752001342	02397749
Edarbyclor 40mg/25mg	28 pills (blister pack)	060752001359	060752001359	02397765

For further clinical information on Edarbyclor, please contact our Medical Services Department at 1-800-361-4261, option 3.

Best Regards,

Christine Kwok
