

'Tis the season... for seasonal allergies

Cromolyn eye drops are in stock and available to order

CROMOLYN EYE DROPS (cromolyn sodium) is indicated in the prevention of the signs and symptoms of seasonal allergic conjunctivitis (itching, tearing, congestion, etc.).¹

HELP your patients remain SYMPTOM-FREE!

CROMOLYN EYE DROPS should be used continually throughout the patient's usual allergy season, even when they are symptom free.¹

Recommended dose for adults and children ≥ 5 years old:

1–2 drops in each eye 4 times a day at regular intervals*.¹

To place an order, please contact your preferred distributor.
